## F O R E W O R D

The year 1980 was a very dark one indeed for the Institute of Phonetic Sciences in Amsterdam. Unexpectedly we lost two members of our Staff, Prof. Dr. Ir. Hendrik Mol and Ir. Johannis G. Blom, both connected to the Institute for more than twenty years.

We like to dedicate this volume of our Proceedings to the memory of both of them. Therefore we are very grateful that all regular members of the scientific and technical staff of the Institute together contributed to this issue.

For the final lay-out we are very much obliged to Heleen Deighton-van Witsen for correcting the English translations, to Fred Heidbuurt who made part of the graphs, to Tineke Muller for computer assistance, to Willemien Eelzak for typing, to Joop Bossema and Hans Butter for reproduction and binding work.
