EDITORIAL

The Proceedings of the Institute of Phonetic Sciences of the University of Amsterdam is an annual publication, intended to provide up-to-date information on current research projects in our Institute.

Proceedings 18 presents eight papers, two of which concern recently finished work of post-graduate students, another one concerns a recently started post-graduate project, and the remaining five represent work that is going on for some time.

Furthermore, two abstracts are included of contributions submitted and accepted for publication in international journals.

The papers on current research projects in this Proceedings represent our two main research fields:

- PERCEPTUAL AND PHYSICAL DESCRIPTION OF VARIATION AND INVARIANCE IN SPEECH
- SPEECH COMMUNICATION: DEVELOPMENT AND PATHOLOGY

All texts of this Proceedings 18 are also available on our World Wide Web server:

URL: <http://fonsg3.let.uva.nl>

For your information a list of personnel of our Institute is included, as well as a list of our publications in 1993 and 1994.

Apart from our Proceedings our Institute's "Profile" is available, giving an overview of our teaching programs, our technical facilities, and short descriptions of all current research projects.

All correspondence, including requests to be put on our mailing list, may be sent to:
